

Water exhibition on innovative irrigation technologies

Riferimenti

Tipo di progetto

Gruppo Operativo

Tematica

Risorse idriche

Information

Time frame

2016 - 2019

Durata

36 months

Partners (no.)

5

Regione

Emilia-Romagna

Comparto

Multifiliera

Localizzazione

ITH55 - Bologna

Costo totale

€65.746,00

Fonte di finanziamento principale

Programma di sviluppo rurale

Programma di sviluppo rurale

Project status

completed

Objectives

Plan objectives:

1. improve the efficiency of irrigation systems business
2. Improve the technical knowledge of farmers on corporate irrigation systems

3. Support the implementation of MIS.4.1 the RDP 2014-2020

These objectives consists of the construction of a set of technical, demonstration and training action, enclosed by a common frame called Water Show, consisting of:

- Field exhibition of equipment irrigation of excellence
- Technological testing and updating of the qualitative database of microirrigation dispensers.
- information campaign on the most efficient business system technologies, targeted optimization of irrigation interventions and their efficient management

Activities

Action 1 - Field Show

Maintenance, improvement and management of the facility

Action 2 - a study

Evaluation of the impact of MIS.4.1 "modernization of irrigation systems.

Action 3 - technological test run

10 technological tests on as many dispensers.

Action 4 - PLAN DISCLOSURE

- 22 guided tours

- 8 provincial seminars to update

- No. 5 video tutorials:

- 2 video lasting about 3 minutes

- 2 video lasting about 10 minutes

- Updating of the section of the consortium web site dedicated to the dripper choice

Pratiche abstract

Description

The benefits on the production system concerns the positive effect from the application of proper technique irrigated on PLV, on average 1800 Euros.

The environmental benefits affecting the environmental protection are, on average, almost 700 cubic meters / ha, of estimated consumption of 3,000 cubic meters / ha.

Social benefits concern the economic impact of the spread of irrigation products, much of which belongs to the local industry. Hosting WATER ON SHOW the equipment manufactured by local companies is a highly defined point just in terms of economic impact of the project.
