Ideas for EIP-AGRI digitisation activities in 2018 – Antonella Zona - Margarida Ambar

Survey closed on 3 October – 4 suggestions received + 3 from June

Using big data to understand complexity of farm systems	New business models based on data as currency
New data for farmers	<i>L'atelier Paysan</i> - Farmer-driven open-source technologies and practices for more resilient and agro-ecological farming systems
Optimising the logistics of rural businesses	Ontology identification, analysis and comparison in the context of IoT
Internet market places for agricultural products	

Session I “Shaping the thematic work for 2018” – digitisation

- Previously:
EIP-AGRI events digitisation-related
Online survey to collect suggestions
Email – link to final reports + suggestions collected
- Objective of the session:
discuss ideas for future activities of EIP Network on
digitisation
- 4 breakout groups - color in badges

Session I “Shaping the thematic work for 2018” – digitisation

- Process:
- Group discussion
 - Question: “What should be EIP-AGRI digitisation activities in 2018?”
 - Select 3 activities & elaborate (motivation, type of activity, etc.)
 - Prepare reporting back
