Scope of the Call

Digital advisory tools include ?

Communication tools, info graphics, video, specific social media tools

Farm Software, web and phone applications, benchmarking tools,

Digital education and training materials and supports, games etc.

Digital sensors and data collection and analysis, decision support tools

Digital marketing support tools ??

FAIRshared Issues

- Why != Digital Divide?
 - - Farmer - the non user to the best user
 - - Advisor –
 - - Other supply chain actors
- What to achieve?
 - More farmers participating in Digital Age
- How ?

Sharing – adapting - learning from each other

 - Digital Advisory Tools (DATS)
 - Expertise of those that develop and use
 - Motivation /attitudes of advisors and farmers

Agriculture's Digital Divide

JON
FARMER

I want to be part of the Digital Revolution.
But it's too difficult.

ANNA
ADVISOR

I love these new technologies, but there's a lack of user data.

MARC
ADVISOR

I'm a small advisor with basic skills and tools. I can't develop or buy new tools. If only there was another way...

OLIVER
FARMER

These new tools have made life easier but it's hard to justify with so few users...

Connectivity
Motivation

We need to build a bridge so that all advisors and farmers can benefit from digital technology.

2018 Advisor Meeting

I wish I could use the same tools as you, but we can't afford them.

OLIVER
ADVISOR

Come with me to the new digital advisory tool exchange. We upload lots of apps and tools for advisors all over Europe to use. You could upload some of your digital tools.

OLIVER
ADVISOR

That was great! It really opened my eyes to what other advisors are doing. I got some free pilot tools and left some of my own. I was even asked to become a super user and train others!

Congratulations! I was asked to join a team going to Greece to develop a digital strategy and action plan for advisors there.

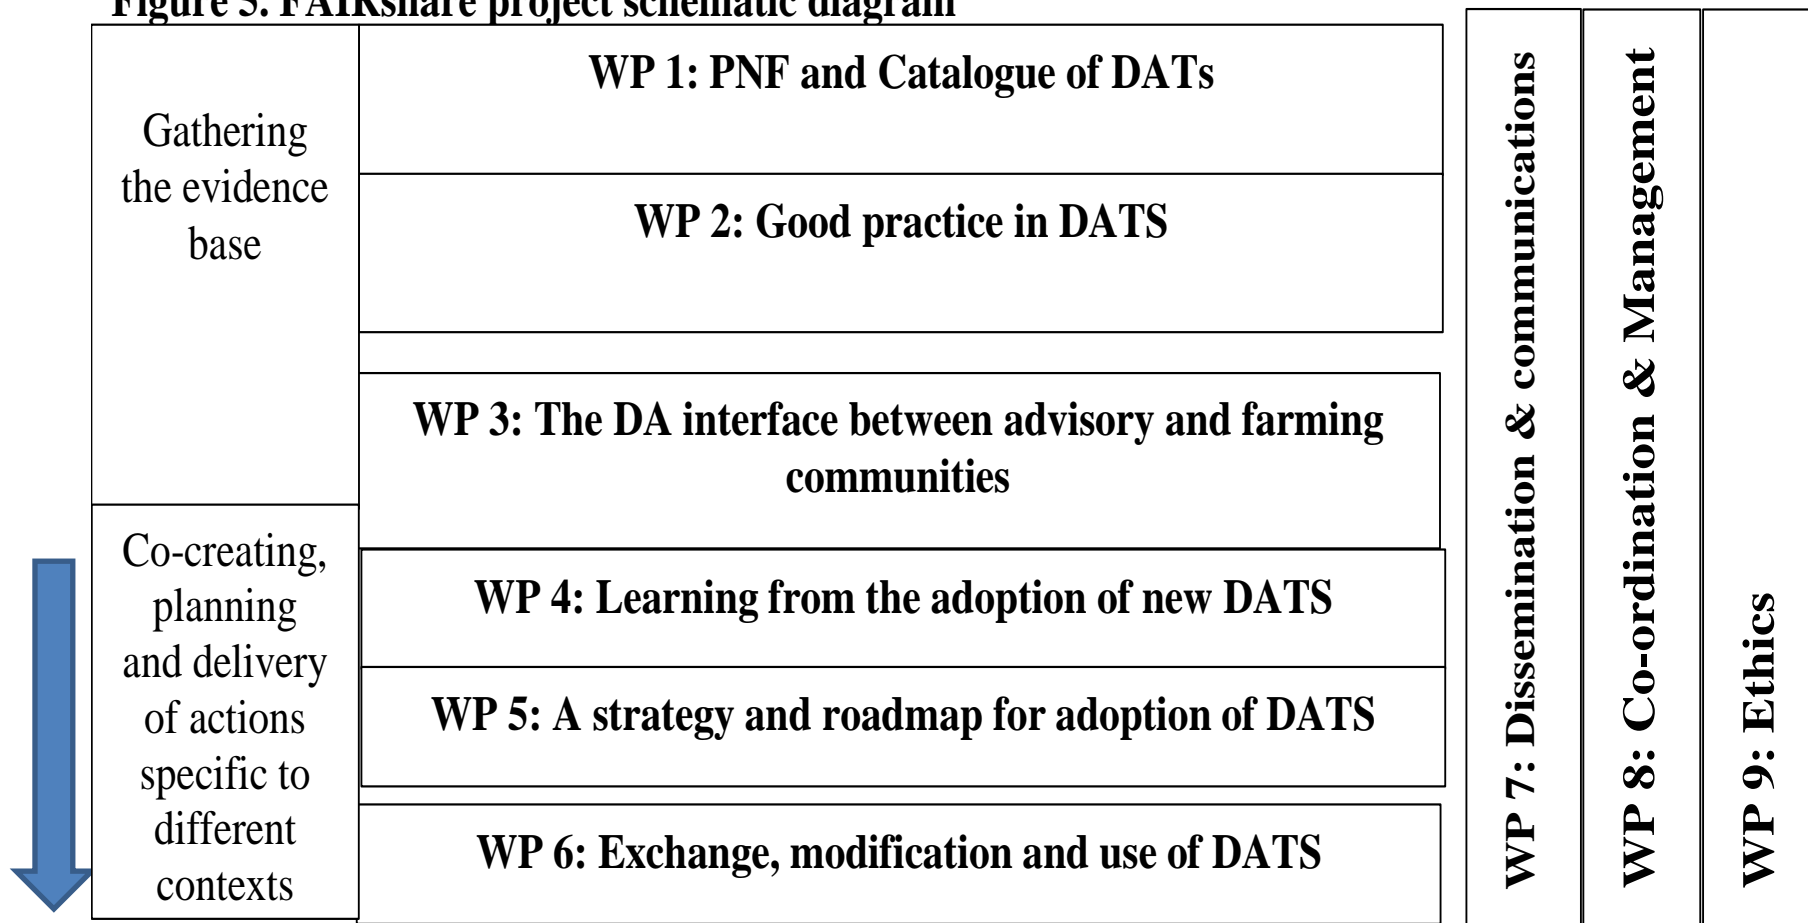

EMMA
ADVISOR

I'd love to get some of that help in my area.

Yes, there's a lot going on with EIP Operational Groups, Digital Innovation Hubs, etc. I'll suggest it to my boss but it needs to be part of a regional digitisation strategy for the AKIS.

Bridging the Digital Divide

MARC
ADVISOR

Networking in FAIRshare has helped me and my clients to plan how we use digital technology

Roadmap to the digital age

FAIRSHARE BRIDGE

Tools

Expertise

Motivation

I was very sceptical until my advisor convinced me to log in.

For me the cost is lower now.

With more farmers using technology, the benefit to us is much greater.

Keeping up with the digital age requires vision, planning and action. It is fast-moving.

40 User cases – looking at specific farm advisory services e.g crops/ organics/ dairy/ beef in different contexts

Use a MAA in each case (€90k x30 €30k x 10)

- Vision – develop and document
- Gaps and obstacles – identify and report
- Strategy – formulate and agree
- Roadmap – action Plan
- Actions implement
 - Training
 - Adaption
 - Translation

FAIRshare Efforts & Rewards

Gain for Advisors

- See range of DATs
- See good practice in DAT use
- User case learning and motivation, shared vision, strategy, actions
- New DATS and ideas

Effort for advisors

- MAA and sharing of experiences
- Participate in user cases
- Travel as DAT experts/users
- Deliver better support to farmers
