

# Meeting of the SWG SCAR AKIS Strategic Working Group on Agricultural Knowledge and Innovation Systems

Good practices & challenges of knowledge  
exchange activities in the **current** period  
+ plans for the **future** e.g. in  
CAP AKIS Strategic plans

Kaunas, LT, 19-20/10/2019

Member State: **Slovenia**

**SCAR**  
Standing Committee  
on Agricultural Research

# Which knowledge exchange activities are possible?

- ✓ Thematic networks ([FERTINNOWA](#), [NEWBIE](#), [TREASURE](#), [IMWPRAISE](#),...)
- ✓ Dedicated networking activities of the EIP networks or NRNs (traditional conference of public agricultural advisory service, [EIP events](#)) **9 OG's**
- ✓ MS' networks filtering, summarizing and **translating** all info relevant for their country about OGs, H2020 MA projects, other relevant EU or national (research) projects ([EIP-AGRI Factsheet](#), [EIP-AGRI brochure](#))

# Which knowledge exchange activities are possible?

- ✓ Knowledge centres making relevant info flow between actors (Chamber of Agri and Food enterprises, Agricultural Research Institute, Agricultural faculties)
- ✓ Digital knowledge reservoirs ([DIH Slovenia](#), [DIH AGRI FOOD](#), Agricultural faculties)
- ✓ Farmer-to-farmer exchanges (FAS, [Slovenian association of Young farmers](#), farmers)
- ✓ On-farm demonstration (FAS, farmers, Agricultural Research Institute, Agricultural faculties, Agri-food companies)
- ✓ Training on specific themes organized mainly by FAS (M1 and M2- RDP) (faculties and agri-food companies)

# Which knowledge exchange activities are possible?

- ✓ Actions from research institutes to bring their solutions/practical knowledge to farmers and advisors (Agricultural Research Institute, Agricultural faculties, Agri-food companies)
- ✓ Exchange visits of farmers or advisors or researchers (FAS, Slovenian Association of Young farmers, Agricultural Institute, Faculties)
- ✓ Initiatives from education/schools to transfer knowledge
- ✓ Minimum education requirements for farmers (agriculture, crop and animal husbandry)
- ✓ Specific initiatives to bridge the gap between science and practice (**SRIP hrana – Smart Specialization Strategy**)
- ✓ Communication to consumers and society (national&local media, other)

# Which knowledge exchange activities are possible?

- ✓ Specific initiatives to bridge the gap between science and practice (**SRIP hrana – Smart Specialization Strategy**)

## What are SRIPs?

- Long-term partnerships
- Establishing and strengthening Slovenian stakeholders in **value chains**
- **Complete support** for research and innovation activities
- Enabling entering on global market in priority areas of Smart specialisation strategy S4

## Strategic goals S4 for Sustainable food production

To encourage **sustainable and high quality of food production**, develop **new marketing models** on the domestic, European and global market.

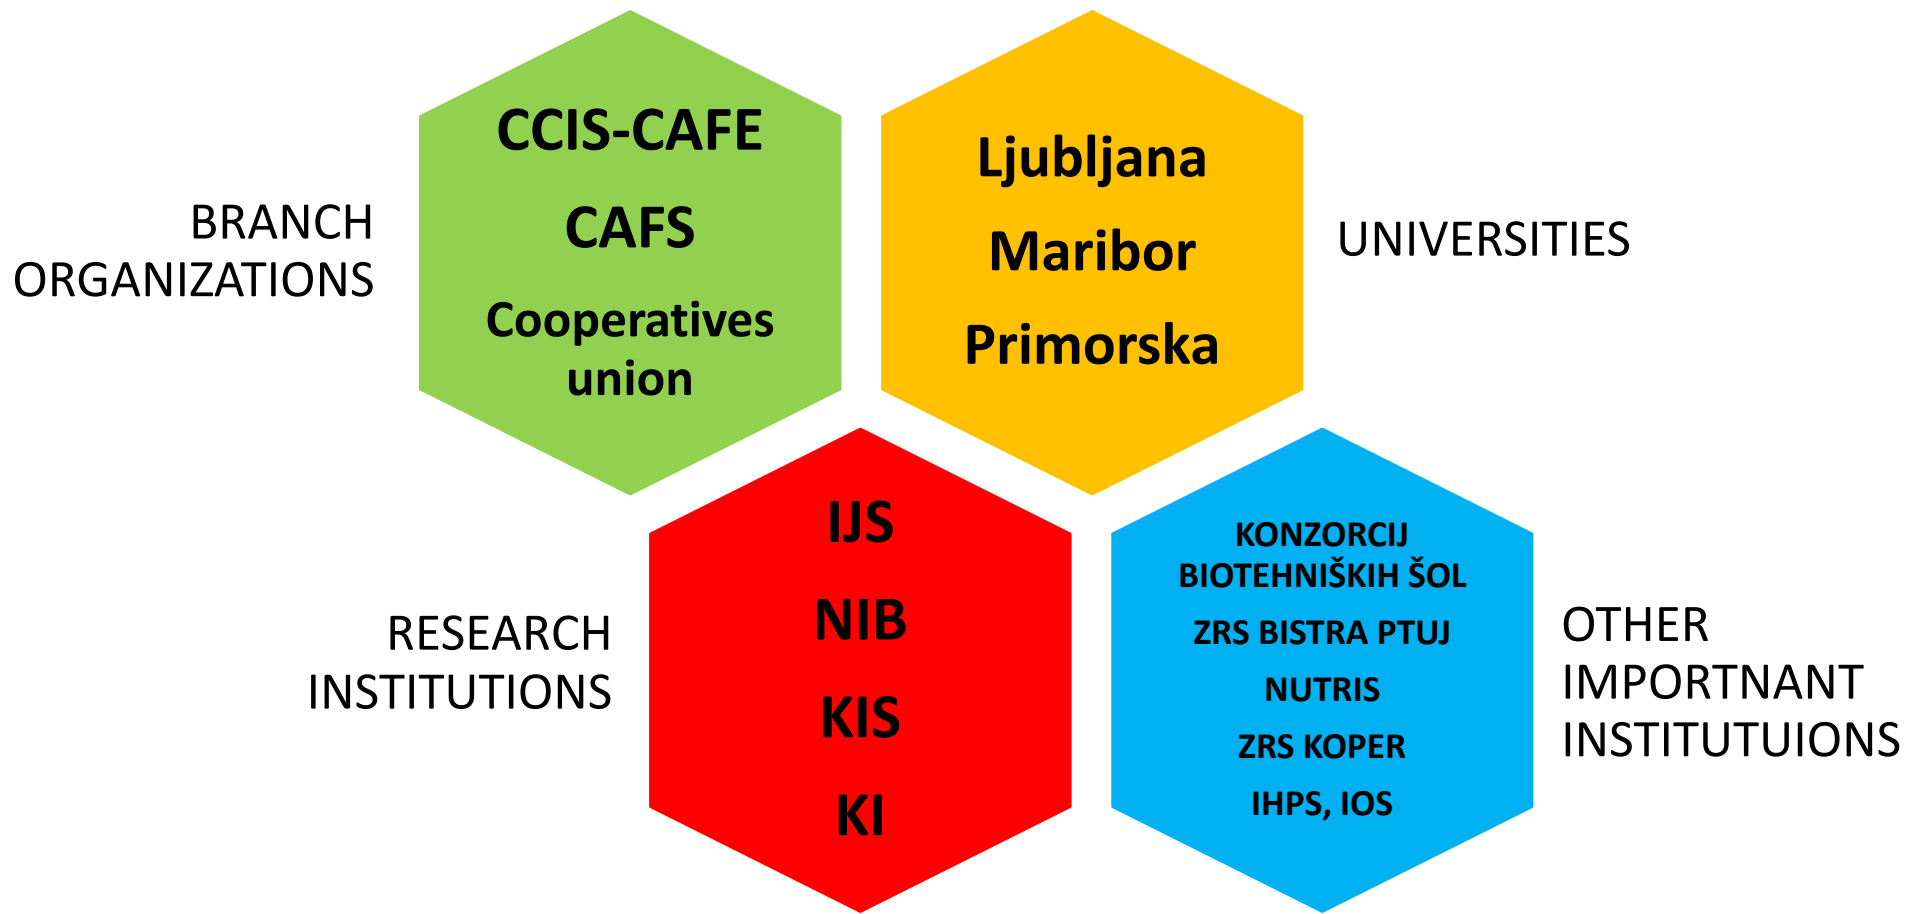

Establish **innovative, short supply chains** for the **local**, especially for **organic food** with guaranteed and recognized **traceability from field to table**.

Ensure long-term sustainable conditions for the **development of varieties** and **agricultural practices**, adapted to the Slovenian environment and climate changes.

# SRIP HRANA Partnership

## Goals by 2023

1. Establishment of at **least 3 value chains** that will provide a critical purchasing mass and be supported by a long-term contractual partnership based on economic initiative.
2. Added value increase **(20%)** per employee from participating companies in value chains.

## Focus areas

***I.***

***Sustainable production and processing of functional foods.***

***II.***

***Technologies for sustainable plant and livestock production.***

**DEVELOPMENT OF HUMAN RESOURCES**

**INGREDIENTS  
AND  
SUSTAINABLE  
USE OF  
RESOURCES**

**SMART PROCESS  
PLANNING AND  
PROCESS CONTROL**

**ADVANCED  
EQUIPMENT AND  
TECHNOLOGIES  
FOR SUSTAINABLE  
FOOD  
PRODUCTION AND  
PROCESSING**

**HYGIENE, SAFETY  
AND QUALITY OF  
FOOD**

**FOOD,  
NUTRITION AND  
CONSUMER**

**INTERNATIONALISATION**

**VALUE CHAINS**

# Which knowledge exchange activities are possible?

✓ Communication to consumers and society (national&local media, other)

Evropski kmetijski sklad za razvoj podeželja: Evropa investira v podeželje

11. avgust 2017 © Delo gospodarstva 20. september 2019

KAJ JE EVROPSKO PARTNERSTVO ZA INOVACIJE?

Evropsko partnerstvo za inovacije (EIP) je nov koncept evropske politike za spodbujanje inovativnosti in učinkovitejšega povezovanja med raziskavami in inovativnostjo z namenom hitrejšega pridobivanja uporabljenih rešitev. V sklopu inovativne Unije je bilo vzpostavljenih pet evropskih inovacijskih partnerstev. Eno izmed njih je tudi **Evropsko partnerstvo za inovacije na področju kmetijske produktivnosti in trajnosti (EIP-AGRI)**. Glavni namen EIP-AGRI je spodbujati konkurenčno in trajnostno kmetijstvo in prispevati k zagotavljanju stabilne pridelave hrane, kmetje in biomaterialov, trajnostnemu upravljanju naravnih virov od katerih sta odvisna tako kmetijstvo kot gospodarstvo in sočije z okoljem. EIP na področju produktivnosti in trajnosti kmetijstva je opredeljen od 55. do 57. člena Uredbe (EU) 2014/2013/EU.

Priloga EIP se spodbuja v okviru ukrepa M16 - Sodelovanje, ki je povsem nov ukrep PRP 2014-2020. V središču teh projektov je **kmetijsko gospodarstvo in praktični izzivi**, s katerimi se to kmetijsko gospodarstvo srečuje v svoji vsakdanji praksi.

Rezultati projektov EIP bodo vzpostavljene **nove in inovativne REŠITVE** v praksi ter učinkovitejša KOMUNIKACIJA med kmetovalci, raziskovalci, svetlovalci in drugimi akterji, vključno z **RAZŠIRJANJEM PRAKTIČNIH REZULTATOV** v javnosti.

# Which good practices for knowledge exchange activities work well in your country/region?

Which good practices of knowledge exchange activities work well in the current period ?

Thematic networks

EIP-AGRI  
Focus groups (14)

On-farm demonstrations

Trainings

Exchange visits

OG's  
(9)

Non-EIP related projects  
(7)

Information materials

Communication to consumer and society

# Which challenges for knowledge exchange activities do you see in your country/region?

Which are the **challenges** for the knowledge exchange activities you listed ?  
Which are the **incentivising factors** that make it work? How is the **funding** and the **organisation** managed?

## Challenges:

- Cooperation
- Management
- Internationalization

## Incentivising factors:

- Establishment of management body

## Funding & organization:

- RDP
- National funds
- Private-public initiatives

# Which knowledge exchange activities would you like to see planned in the CAP AKIS plan of your country/region?

Which knowledge exchange activities would you like to see planned in the CAP AKIS plan of your country/region? Why?

1. OG's (EIP projects)
2. EIP-AGRI Focus Groups
3. Thematic networks
4. Demonstration farms
5. Exchange activities
6. Applied research
7. Public-private partnerships

Resolucija: „NAŠA HRANA, PODEŽELJE IN NARAVNI VIRI PO 2021“

## Discussion:

All comments and suggestions very welcome!
